To Whom it May Concern:

Regarding: Recommendation for LINCO and RA-LIN & Associates

It is our pleasure to recommend the professional services of both LINCO and RA-LIN and Associates. We have dealt directly with both companies over the past year as we worked together to develop and construct a 60,000 square foot medical building in Carrollton, Georgia. We were already familiar with RA-LIN and Associates having worked with them on a previous project several years ago. We found that the quality of work that RA-LIN provides has only improved with the growth of the company. Every employee we worked with from Ben Garrett to the construction people were helpful, informative and efficient. It was our first experience with Josh Chapman and LINCO and we found that they were able to present a simple and beneficial development plan that fit our needs and our budget. Josh's ability and expertise is exceptional and he became a vital part of our project. LINCO has been instrumental and most affective in managing the affairs of the development and complexities of working with six different medical practices and specialties. The project has progressed on schedule and we look forward to moving into our new facility very soon.

We are pleased to recommend the services of LINCO and RA-LIN. Together, they comprise a development and construction team that would be hard to beat.

Sincerely,

Jan Zeis  
Practice Administrator

James C. Pope, M.D.  
President
