RE: Kendrick High School

Dear Bernie,

Even though this project has not been officially closed out, it's not too soon to express to RA-LIN the Muscogee County School District's appreciation for a job well done. I can't imagine that there are many school renovation jobs which would be more challenging.

With the exception of the work accomplished at night, before the end of school, you were required to "fast track" \$8.5 million dollars of construction over a summer break. A layman might profess to comprehend this. We, who are perhaps more knowledgeable, are awed.

You did it and in the process made friends, an enviable accomplishment.

Thanks personally – and for the school district.

Yours Very Truly,

Robert G. Hecht
Director of Construction
