

## Safety Requirements for Subcontractors

**This is not meant to be used as a comprehensive list, only as a guideline. Each subcontractor is responsible for verifying they meet all Federal, State, and RA-LIN requirements for safety training and certification.**

### **NOTE:**

**On Equipment: Employees must be trained on the Requirements of OSHA Subpart O 1926.600 and the manufacturer's requirements for each machine they may operate.**

**Any subcontractor with a need to have a crane on site must be 100% compliant to the new crane standard that went into effect November 8, 2011.**

### **Grading**

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Trenching & Excavation training – if doing any.
- Equipment training.
- Forklift training – if needed for Scope of work.
- NPDES Level 1A Blue card/ Min White card.
- Flagman training- if doing work near or on road.
- Any other training needed for scope of work.

### **Paving**

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Equipment training.
- Flagman training- if doing road work.
- NPDES Level 1A Blue card/ Min White card.
- Any other training needed for scope of work.

# Safety Requirements for Subcontractors

## **Pest Control**

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan Any other training needed for scope of work.
- Any other training needed for scope of work.

## **Landscaping**

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan
- Equipment training
- NPDES Level 1A Blue card/ Min White card.
- Forklift training – if used for scope of work.
- Any other training needed for scope of work.

## **Sport Field**

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan
- Equipment Training.
- NPDES Level 1A Blue card/ Min White card.
- Forklift training – if used for scope of work.
- Any other training needed for scope of work.

## **Concrete Finishing/work**

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan
- Equipment Training.
- Forklift training – if using for haling material.
- Any other training needed for scope of work.

# Safety Requirements for Subcontractors

## **Mason**

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan
- Equipment training.
- Forklift training – if using for haling material.
- Scaffolding Safety Certification.
- Fall Protection training – if required to work at heights without guardrails.
- Rigging & Signaling training- if rigging loads.
- Any other training needed for scope of work.
- General Information is that Mason must wet cut. Silicia continues to be an OSHA National Emphasis

## **Steel Erection**

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan – Including site specific steel erection plan.
- Equipment training.
- Forklift training.
- Rigging & Signaling training.
- Fall Protection training.
- Aerial lift training.
- Welding Certification.
- Crane inspection report weekly, quarterly, and annual.
- Crane Operation Card (NCCO).
- Crane must be compliant with new subpart that went in effect Nov. 8
- Scaffolding Safety Training – if needed for scope work.
- Any other training needed for scope of work.

# Safety Requirements for Subcontractors

## Trusses

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Equipment Training
- Forklift training.
- Rigging & Signaling Training.
- Fall Protection Certification.
- Aerial lift training.
- Welding training.
- Crane inspection report weekly, quarterly, and annual.
- Crane Operation Card (NCCO).
- Crane must be compliant with new subpart that went in effect Nov. 8
- Scaffolding Safety training.
- Any other training needed for scope of work.

## Cabinetry

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Equipment training.
- Forklift training – if used for scope of work.
- Any other training needed for scope of work.

## Damp proofing/ Fireproofing

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Scaffolding Safety training – if needed for scope work.
- Equipment Training – if needed for scope of work.
- Any other training needed for scope of work.

# Safety Requirements for Subcontractors

## **EIFS/STUCCO**

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Equipment training – if needed for scope of work.
- Forklift training – if needed for scope of work.
- Scaffolding Safety training.
- Fall Protection training – if needed for scope of work.
- Rigging & Signaling training - if rigging loads.
- Any other training needed for scope of work.

## **Roofing**

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Scaffolding Safety training – if required to use for scope of work.
- Fall Protection training.
- Rigging & Signaling training- if rigging and lifting loads.
- Forklift Certification training – if used for scope of work.
- Crane inspection report weekly, quarterly, and annual.
- Crane Operation Card (NCCO).
- Crane must be compliant with new subpart that went in effect Nov. 8
- Equipment training – if required to use for scope of work.
- Any other training needed for scope of work.

## **Door Installation**

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Forklift training – if needed for scope of work.
- Equipment training – if needed for scope of work.
- Any other training needed for scope of work.

# Safety Requirements for Subcontractors

## Window Installation

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Forklift training.
- Equipment training – if needed for scope work.
- Aerial Lift Training
- Scaffolding Safety training – if needed for scope of work.
- Fall Protection training – if needed for scope of work.
- Crane inspection report weekly, quarterly, and annual – if needed for scope of work.
- Crane Operation Card (NCCO) – if needed for scope of work.
- Signal and Rigging Training
- Crane must be compliant with new subpart that went in effect Nov. 8
- Any other training needed for scope of work.

## Carpet/VCT/Base/Ceramic

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Forklift training- if needed for scope of work.
- Any other training needed for scope of work.

## Maker & Tack boards

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Forklift training – if needed for scope of work.
- Any other training needed for scope of work.

# Safety Requirements for Subcontractors

## Painting

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Forklift training – if needed for scope of work.
- Scaffolding Safety training – if needed for scope of work.
- Fall Protection training – if needed for scope of work.
- Aerial lift training.
- Any other training needed for scope of work.

## Metal Lockers

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Forklift training – if needed for scope of work.
- Any other training needed for scope of work.

## Bleacher

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Forklift training – if needed for scope of work.
- Fall Protection – if needed for scope of work.
- If have to use a crane for any reason must be 100% compliant the Crane Standard.
- Any other training needed for scope of work.

# Safety Requirements for Subcontractors

## Canopy

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Forklift training – if needed for scope of work.
- Aerial Lift training – if needed for scope of work.
- Scaffolding Safety training – if needed for scope of work.
- Fall Protection training – if needed for scope of work.
- Any other training needed for scope of work.

## Kitchen Equipment

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Forklift training – if needed for scope of work.
- Any other training needed for scope of work.

## Greenhouse

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Forklift training – if needed for scope of work.
- Equipment training – if needed for scope of work.
- Scaffolding Safety training – if needed for scope of work.
- Fall Protection training – if needed for scope of work.
- Aerial lift training – if needed for scope of work.
- NPDES Level 1A Blue card/ Min White card.

# Safety Requirements for Subcontractors

## Plumbing

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Welding Certification.
- Trenching & Excavation training – if needed for scope of work.
- Equipment training – if needed for scope of work.
- Forklift Certification training – if needed for scope of work.
- NPDES Level 1A Blue card/ Min White card.
- Any other training needed for scope of work.

## Sprinkler

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Forklift training – if needed for scope of work.
- Scaffolding Safety training – if needed for scope of work.
- Fall Protection training – if needed for scope of work.
- Aerial lift training.
- Any other training needed for scope of work.

# Safety Requirements for Subcontractors

## **HVAC**

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Forklift training – if needed for scope of work.
- Equipment training – if needed for scope of work.
- Scaffolding Safety training – if needed for scope of work.
- Fall Protection training – if needed for scope of work.
- Aerial lift training – if needed for scope of work.
- Welding Certification – if needed for scope of work.
- Crane inspection report weekly, quarterly, and annual.
- Crane Operation Card (NCCO).
- Crane must be compliant with new subpart that went in effect Nov. 8
- Any other Certification applies to subcontractor's scope of work.
- Rigging & Signaling training – if needed for scope of work.
- Any other training needed for scope of work.

## **Sound systems/Intercoms:**

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Forklift training – if needed for scope of work.
- Scaffolding Safety training – if needed for scope of work.
- Fall Protection training – if needed for scope of work.
- Aerial lift training – if needed for scope of work.
- Any other training needed for scope of work.

# Safety Requirements for Subcontractors

## **Electrical**

- OSHA 10 training
- CPR and First Aid training
- SDS Book.
- Site Specific Safety Plan.
- Arch Flash training – if needed for scope of work.
- Forklift training – if needed for scope of work.
- Aerial lift training – if needed for scope of work.
- Fall Protection training – if needed for scope of work.
- Trenching and Excavation training – if needed for scope of work.
- NPDES Level 1A
- Any other training needed for scope of work.
